

Summer Internships 2024

Our internship scheme was established in 2014 to help third-year Robertson Scholars enhance their CV and gain valuable experience in the workplace before entering their final year of university.

Now in its 30th year, The Robertson Trust Scholarship aims to improve access, retention and graduate outcomes for under-represented young people in higher education. Through our bespoke self-development programme, Journey to Success, Robertson Scholars are also given access to mentoring, training, wellbeing support, and high-quality internships.

Robertson Trust Scholars embark on a four-year development programme which includes training workshops alongside their studies. Through these sessions, Scholars can develop their resilience, their professional communication skills, consider how they can promote company values and how to use this learning to prepare for internships.

“We were tremendously lucky to have the Scholar on an internship with us. They brought specialised skills to our work and were always enthusiastic and imaginative in their approach. They were a great member of the team and good fun to have around.” - 2023 Host Organisation

Interested in hosting?

- Scholar Interns are expected to complete up to 225 hours of work experience or shadowing, which can be completed full-time or part-time. Each scholar will receive a bursary for the duration of their internship.
- We offer a flexible approach where the host organisation is able to agree on the internship start date and schedule of hours directly with the successful Scholar.
- You will have the opportunity to interview interested scholars and select who you consider to be best suited to the role/organisation.
- If interested in hosting an intern you would be required to complete an internship overview template for the potential internship, please email scholars@therobertsontrust.org.uk to request the template for this.
- Full details of our data protection practices can be found in the [data protection policy](#) on our website.
